

Summer School in Cologne September 2018

at the Medical Faculty of the University of Cologne
in cooperation
with the
Kaohisung Medical University

The aim of the Summer School is to enable the students
of the partner university KMU to:

- acquire practical medical skills in the Simulation Centre ("KISS") at the Medical Faculty
- obtain a certificate demonstrating command of these competences which is recognised by the KMU
- acquire knowledge and techniques for the application of "Peer Teaching" for use at their home university
- become familiar with German medical training and in particular medical training in Cologne
- meet students from partner universities and exchange experiences with them
- visit other university and non-university institutions in Cologne and the surrounding area)
- become familiar with the German doctor/patient relationship, German culture, German cuisine (and the German weather!)

The number of participants: minimum 10, maximum 24
participants

Organisation by:

KK&S
