- **August 2021 - 2022 – Virtual summer school in India with Symbiosis International University (India), Universitas Pembangunan Jaya (Indonesia), Tongji University (China), and the University of Cologne.**

Why should foreign students intern in Indian Medical colleges?

- **Opportunity to work under world-class healthcare experts**

The medical experts have many years of regional and geographical knowledge and experience and may even be recognized as leaders in their respective fields of study or research, which helps interns gain the exposure they require in the medical field.

- **Getting Hands-On Experience**

You will find the exposure to learn about regional diseases (which may be extinct in other countries) in India and how the doctors are working towards finding a solution to these diseases

- **International Experience**

Having an international internship experience with the top-medical colleges in India will help give you an experience which will help you from time to time, while dealing with patients, at different stages of life. Stay at AIIMS offers the opportunity to get to know certain diseases and injuries in a different way and with a different frequency than in Germany. For example, of the care of trauma patients in the Apex Trauma Centre or the treatment of tuberculosis. In addition to the internship, you get the opportunity to get to know Delhi and some parts of India.

- **Innovative Technologies**

The medical colleges of India are equipped with the best medical technology and medicines. The latest medical equipments, instruments and other medical devices are an added advantage for the medical interns working in India.

Active Indian Partner Medical Academic Cooperations

All India Institute of Medical Sciences (AIIMS), New Delhi

- QS World university Rankings, 2022 – 204th (World) & 1st (South Asia)
- Indian National Institutional Ranking Framework, 2022 – 1st
- AIIMS has India's first and only minimally invasive surgery training center, under collaboration with Germany.

Amrita Institute of Medical Sciences (AIMS), Kochi, Kerala

- QS World university Rankings, 2022 – 1001th (World)
- India National Institutional Ranking Framework, 2022. – 6th
- The British Medical Journal Award for the Best Surgical Team in South Asia (2015)
